600 Floor Standing Two Door Vanity Unit

PRODUCT **ESPERIA 600 VANITY CARCASS**

UNIT SIZE **570w x 435d x 820h**

BASIN OPT1 **ABANO 600w x 460d x 60h**

BASIN OPT2 **ATESSA 620w x 475d x 50h**

FITTING ADVICE

- The shaded areas indicate the clear voids for the running of services.
- This unit can tilt forward. A secure wall fixing is required.
- To aid installation, it is recommended to remove the doors to give full access and to avoid damage.
- All wall to carcass and wall to basin joints should be sealed with silicone
- All dimensions are in mm.

CERAMIC BASINS

Ceramic Basins are made out of liquefied fireclay which is poured into a mould and allowed to set before being hand finished. A ground glass glaze would typically be sprayed over the basin before the final firing.

This long-lasting, durable material suits a simple and minimalistic bathroom suite as well as a traditional Victorian look. Stains are easily removed and ceramic is generally easy to clean to maintain a shiny appearance. The slight ripples occasionally seen along its surface are often mistaken for flaws these are actually part of the ceramic basins characteristics.

FIXING TOGETHER

ATTACHING TO THE UNIT

To aid installation, it is recommended to remove the doors to give full access and to avoid damage.

1. Fix through the pre installed wall bracket.
2. Silicone around the top of the unit and place basin.
3. Silicone around the rear of the unit at wall abutment.
4. Re-fit doors
